## APPOINT BURGESS FOR BIGLERVILLE

George E. Deardorff Becomes Mayor  
of Busy Town, Succeeding J. H.  
Seasley who Resigned. Current  
Business at Court Session.

At a session of Court this morning George E. Deardorff was appointed Burgess of Biglerville to succeed J. H. Seasley resigned. Fifteen citizens petitioned the Court for the appointment of Mr. Deardorff.

The first and partial account of W. F. Gilliland administrator of John H. Gilliland's estate was confirmed.

William H. Frame was discharged as administrator of the estate of Joseph Frame, late of Liberty township.

William C. Storrick's account as guardian of the estate of Chester A. Leas was confirmed and the guardian discharged.

The final account of Walter S. Smalley, assignee of the assigned estate of the Pennsylvania Lime Products Company, was confirmed.

W. G. Leas was discharged as receiver for the East Berlin Railway Company.

The petition of John C. Cline, of Tyrone township, for the adoption of Lloyd Russell Myers, was granted. The child is a six year old son of LeRoy and Nettie Myers.

The reports of the county auditors of the various officials' accounts were presented and ordered filed.

The account of the Citizens Trust Company guardian of Annie M. Flesman was confirmed and the guardian discharged.

### AT THE REVIVALS

Methodist Meetings Close. Biglerville  
Pastor Gets Another Gift.

The help meetings in the Methodist church came to a close Sunday evening but the Wednesday evening prayer services will be evangelistic in character for some weeks. Special music was the feature of all the services in the church on Sunday.

There were three decisions Saturday evening and four on Sunday evening at the revival service in the Biglerville Lutheran church. Sunday night the business men of the town presented the pastor, Rev. C. F. Floto, with a Bible and \$20. There will be no service this evening but services will be resumed Tuesday night. Rev. Mr. Floto has recovered from his recent illness.

This will be "church night" at the United Brethren revival when members of other denominations are especially invited to be present. Tuesday evening will be "young people's night" and Wednesday, "farmers' night."

### \$15,000 BLAZE

Fire Swept Buildings at Hancock on  
Saturday.

Fire, which broke out Saturday morning, swept the three buildings owned by R. S. Dillon, along the National Pike, about one and one-half miles west of Hancock, causing a total loss of about \$15,000.

No one has been working in the cooper shop, which building was the first to catch, for the past three days. Two large warehouses, used for storing barrels, situated on the other side of the road, soon caught from the cooper shop, the wind sweeping the flames across the road.

Before anyone could reach the buildings they were partially destroyed. In the warehouses there were \$1,800 worth of barrels stored, besides a quantity of fertilizer, used on the orchards about that section.

Mr. Dillon was insured for \$8,500.

## SEVERE FALL FOR WOMAN AGED 91

Mrs. Charlotte Moore. One of Gettysburg's Oldest Residents, Sustains a Broken Shoulder and Other Injuries. Unconscious.

Falling backward on the stairway at her home on South Washington street Saturday afternoon, Mrs. Charlotte Moore, more generally known as "Aunt Charlotte" received injuries which, it is now feared, may result seriously. Mrs. Moore is 91 years of age.

During the afternoon she started to go to the second story of the home of Andrew Becker where she resided. She had taken but a few steps when she started swaying from side to side and then fell backward, striking her shoulder and her head with great force. The one shoulder was fractured and an ugly gash was cut above the eye.

John Becker was nearby when she fell and he called other members of the family. They found her unconscious and she has remained in that condition ever since, with her strength failing gradually. The physician who is in attendance stated to-day that there had been no favorable development.

What caused the fall is not known. It is believed that she may have become dizzy, that she may have suffered a stroke of paralysis, or that she may simply have lost her balance. The fact that she has not been conscious since the accident prevents any definite conclusion.

Mrs. Moore is well known about town. She has been in possession of all her faculties and took a keen interest in everything. Her friends trust that the injuries may not be so serious as they now seem.

### PARTY

Stanner Home Scene of Pleasant Affair on Friday Night.

A very enjoyable surprise party was held at the home of Mr. and Mrs. John Stanner and family Gettysburg Route 8 on Friday evening. Those present were Mr. and Mrs. John Stanner, Mr. and Mrs. Howard Trostle, Mr. and Mrs. John Eckert, Mr. and Mrs. William Miller, Ruth Miller, Beulah Leese, Helen McClellan, Margaret Stanner, Bessie Miller, Goldie Epley and Emma Smith, Messrs. Edgar Weaver, Donald Eckert, William Eckert, Theron Miller, Russel Epley, Roy-stan Griffin, Herbert Griffin, Harry Leese, Malcolm Leese, Earl Leese, Lawrence Heidler, Clare Stanner, Albert Smith, Charles Stanner, and Ronald Stanner.

### MAD DOG IN HOUSE

Dragged it out with Hook and then  
Killed it.

South Baltimore street had its share of the mad dog excitement this afternoon when a large shepherd dog, belonging to Mrs. Mary McPherson apparently developed rabies and ran into her residence in the Duterra row. The animal evidently had all the symptoms of the disease and the residents and neighbors were at a loss to know how to deal with the case.

Chief of Police Emmons was summoned to the scene and with a stick and hook managed to drag the struggling animal into the yard where he shot it. The McPherson dog is said to have been bitten by the bedraggled little black dog which was on the streets for several days last week and which Mr. Emmons finally shot.

### FUMIGATE SCHOOL

## MUSICAL CLUBS WILL TAKE TRIPS

College Singers and Players will  
Travel for Ten Days through Cen-  
tral Pennsylvania Giving Concerts  
at Many Towns.

The combined musical clubs of Gettysburg College will start on a ten day tour on the Tuesday after Easter, and Manager Houser is now closing dates at the following places, Harrisburg, Williamsport, Lock Haven, Altoona, Lebanon, Chambersburg, Waynesboro, Mechanicsburg and Hanover. The glee club this year is said to possess unusually good talent, and the mandolin club will be larger and better than for many seasons. An enjoyable trip and one which will give the college desirable advertising is in prospect.

The spring recess at college will begin several days before Easter and continue for six days. No term-time is marked by this recess as was formerly the case, the one semester closing in February and being followed immediately by the beginning of the other. The base ball team will have no games between the opening contest at Princeton on March 24 and the next game with Muhlenberg here on April 10 so that the team will not be busy over their holidays.

Fraternity house operations loom important at the school. The massive Alpha Tau Omega building has been under roof for some weeks and work on the interior is progressing satisfactorily. Both Sigma Alpha Epsilon and Theta Phi have been given grants of land on the campus and already have their plans under way. It is likely that at least one of these two organizations will build during the coming summer, and possibly both. When these fraternities have their own homes, every one of the eight organizations of that sort at Gettysburg will possess its own building, a condition that is said to exist at but few schools.

When Albright's basket ball team defeated Bucknell 38 to 36, last week they reduced to one small chance Gettysburg's possibility of winning first place in the middle section of the Inter-Collegiate League. For Gettysburg to win she will have to be awarded the decision in the protested game with Susquehanna and then win the game itself. The local school would then be tied with Albright and have to play off that tie. Benfer, the Albright star, is again in the game and Gettysburg would have their hands full though, on a neutral floor, local adherents believe they would bring home a victory.

The Junior and Freshman debating teams of college will on Thursday evening debate the subject, "Resolved that Raw Materials should be Admitted to the United States Free of Duty". The Juniors will support the affirmative side of the question while the Freshmen, who some time ago defeated the Sophomores, will argue the negative side. Dr. Macdonald will preside and the debate will be open to the public.

## RUSSIA WINS FIERCE ATTACKS

German Retreat in Poland is Spreading.

### CAPTURE MANY PRISONERS

The Czar's Cavalry is Now in Pursuit of the Fleeing Enemy—Austrians Checked in Galicia.

London, March 1.—Pursuing a vigorous offensive against the Germans, the Russians have been victorious along the entire line, both against the Austrians as well as Germans, recapturing the town of Przrasnys, which the Germans had temporarily occupied.

The fighting was severe. According to an official statement issued from Petrograd the German retreat is spreading over a constantly widening front, at some points assuming the character of a disorderly flight.

At that point many prisoners have been taken, numbering up to the present forty officers and 3600 soldiers. The Russian cavalry is now engaged in a dogged pursuit of the retreating Germans.

Writing of the fighting in the region about Przrasnys, the official statement continues as follows:

"As a German battery to the southeast of Przrasnys was impeding our offensive," says the statement, "Captain Gourtoff sent out several armored automobiles under fire in the direction of a hostile battery, and at a distance of twenty yards they killed all the gunners. Captain Gourtoff was killed at the very moment that his valor had turned the battle in our favor.

"The booty taken in Przrasnys was so great that up to the present it has been impossible to estimate the exact amount.

"The garrison at Ossowetz sortied and captured several German officers engaged in making observations in the outskirts of the wood.

"Since the beginning of the war General Brussloff's army has captured 190 officers and 186,000 soldiers."

In eastern Galicia the Austrian advance has been checked and the Russians are unofficially reported to have captured Stanislaw and Kolomea, after hard fighting.

The possession of Stanislaw by the Russians is most important because of a railroad running from there to the Carpathians and would prevent an effectual attempt to encircle the Russian left wing.

With the Germans falling back of the river Niemen, the Russian general staff believes that another German scheme of attack upon Warsaw has been frustrated. Along the entire front in this region the Germans appear on the defensive, while north of Grodno the battle has been limited to an intense fire by the Germans.

In the Hober valley one entire battalion of German sappers were wiped out by the artillery fire, with the exception of a few officers and several men. At the fortress of Ossowetz the Russian guns are successfully combating the German 11-inch and 12 inch mortars.

### Germans Admit Retreat in Poland.

Berlin, March 1.—An official statement issued here says: "The German troops retreated before superior forces of the enemy advancing on Przrasnys (north of Warsaw) from the south and east into the region north and west of this town.

"Northwest of Grodno new Russian forces advanced, but they were thrown back by the German counter-attacks, and we took 1800 prisoners.

"Northwest of Ostrolenka an attack of the enemy was repulsed. South of the Vistula there have been no developments of importance."

### STATE TROOPER SHOT

One Man Killed in a Fight at Langeloth, Near Washington, Pa.

Washington, Pa., March 1.—Charles Smith, colored, is dead; State Trooper Charles Nicholson is dying in a Pittsburgh hospital, and several citizens are suffering from minor wounds as a result of a pitched battle following a riot on the outskirts of the new manufacturing town of Longeloth, near here.

The tragedy had its beginning in the beating of a woman by a drunken foreigner. Smith, the man later killed, was not concerned in the trouble, but he later became the leader of a mob which battled the state police, who had been called.

### Entombed by Avalanche.

Paris, March 1.—A snow avalanche in the department of the Hautes-Alpes has completely buried the hamlet of La Caille. The houses are obliterated and it is believed that some of the people must perish before they can be dug out.

### Starts Another Furnace.

Reading, Pa., March 1.—An additional furnace of the tube department of the Reading iron company's plant here was put in operation today, after an idleness of many weeks, giving employment to 100 men. It is said that the outlook in the iron industry generally is very encouraging.

### The Real Thing.

An aim in life is the only fortune worth the finding, says Stevenson; and it is not to be found in foreign lands, but in the heart itself.

### PREMIER ASQUITH.

Declares Britain Will Continue War Even If Others Quit.

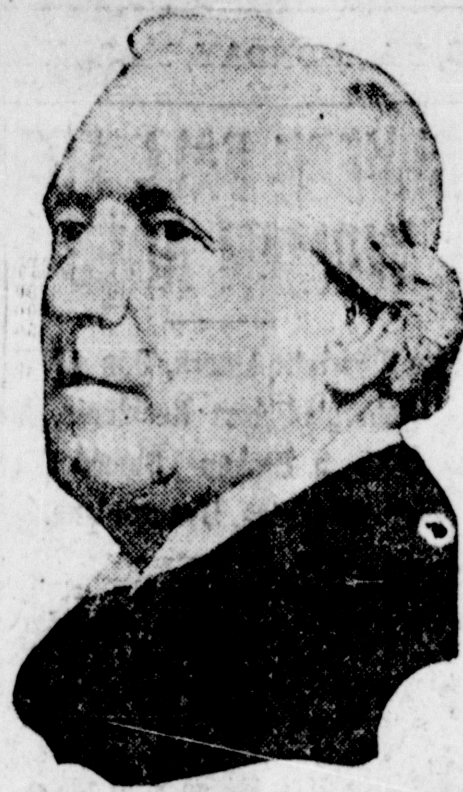

Photo by American Press Association.

All doubts as to Great Britain's sincerity in prosecuting the war were dispelled when Premier Asquith announced in the House of Commons that the country will continue to fight even in the event of the withdrawal of France and Russia, which he added, is believed most improbable. The statement was made in reply to a question regarding a newspaper interview with Winston Spencer Churchill, first lord of the admiralty, in which he expressed the sentiments supported by the premier. Mr. Asquith pointed out that Mr. Churchill had said with especial emphasis that he could not conceive of the withdrawal of France and Russia, "but," he added, "I am in complete agreement with him. I see no reason to differ from the views he has expressed."

## GERMANS GAIN 4 MILES ALONG LINE IN FRANCE

Kaiser's Forces Drive Back French Troops.

Berlin, March 1.—The Germans along the battle front in France and to the west of the Argonne have gained further successes and the French forces have been driven back four miles along the entrenched line of Verdun-Breuil, to the east of Sedanville.

This gain is announced by the German army headquarters in Berlin. The statement further says that over a front of about thirteen miles the Germans continued their gains and that the French troops were compelled to abandon all of their positions in that section of the western front.

The official communication says: "In Champagne the enemy continued his attacks, which were completely repulsed.

"South of Malincourt (which lies to the west of Verdun) and north of Verdun, the Germans stormed several enemy positions behind each other. A weak French counter attack failed. The Germans took as prisoners six officers and 250 men and also captured four machine guns and one mine thrower.

"On the western side of the Vosges the Germans, after violent fighting, dislodged the French from their positions near Blamont and Blonville.

"In an attack on the entrenched line of Verdun-Breuil, east of Sedanville, the Germans pushed back the enemy over a front twenty kilometers (about thirteen miles) long for a distance of six kilometers (about four miles). The enemy's attempts to win back the conquered ground failed with heavy losses.

"The enemy's advances in the southern Vosges also were repulsed."

### JUDGE GEORGE GRAY ILL

Has an Attack of Grip, But Condition is Not Serious.

Wilmington, Del., March 1.—Former Federal Judge George Gray is confined to his home at 1317 Market street with an attack of grip.

His condition is not serious, and his physician feels that he will be out in a few days. The judge was unable, however, to attend the funeral of his niece, Mrs. Henry L. Fulerweider, in New Castle.

### Mongolian Returns to Halifax.

Halifax, N. S., March 1.—The disabled steamship Mongolian, of the Allan line, arrived under convoy of the United States coast guard cruiser Seneca. The Mongolian's bow was deep in the water, but she proceeded under her own steam. She was leaking badly. Just before entering the harbor her captain reported by wire less: "All well on board." The Mongolian carries 200 passengers and a valuable cargo.

### Work For 20,000 Men.

New York, March 1.—C. A. Crane, secretary of the General Contractors' association and spokesman for the contractors doing work on the subway, issued an invitation to 20,000 men to get jobs on the subway. The only conditions are that the men must be willing to accept the prevailing rate of wages, must be able to do the work and must be prepared to prove their citizenship.

## FIND FAULT WITH BRUMBAUGH BILL

Compensation Act Attacked by Employers and Men.

### LIVELY FIGHT IS PROMISED

Manufacturers Say Its Terms Are Too Liberal, While Labor Men Take Opposite View.

Philadelphia, March 1.—Governor Brumbaugh's workmen's compensation plan was attacked by labor men, social workers and employers.

All agreed that the bills proposed by the governor were a step in the right direction, but the details of the compensation plan were the subject of much adverse criticism.

The labor men said that the proposed laws did not give enough payment to injured employees. The employers said the proposed acts gave too much money to the injured employees.

Such representative labor men as James J. Roach, national organizer of the American Federation of Labor, declared that the labor men would oppose the bills in their present form and fight for better terms.

The chairman of the legislative committee of the Manufacturers' club said that the terms were too favorable for the workmen, and that the manufacturers would oppose the bill.

Roy A. Hatfield, a leading member of the Bituminous Coal Operators' association, of Clearfield, the organization that was credited with defeating the compensation act in the legislative session of 1913, severely criticized some provisions of the Brumbaugh plan, while at the same time he stated that he was in favor of fair compensation laws.

Every one who discussed the bill, whether labor leaders, manufacturers, coal operators or social workers, was agreed that the principle of compensation was good, and all said they were anxious to see a "good" compensation law in force. The utmost diversity of views in regard to the amount of compensation and how long it should be paid were expressed.

The labor men said that their compensation should be 66 2/3 per cent. Some wanted 100 per cent. The manufacturers said that if 50 per cent of the wages were paid for total disability they should not run for 500 weeks. Others said that there should be only 40 per cent of the wages paid in case of total disability.

The opinions of the manufacturers, labor men and workers were echoed by employers and workers in the various points throughout the state. Everybody wanted a compensation bill and everyone thought that the amount of compensation he had in mind should be made the basis if the bill now in the hands of the governor.

The Pennsylvania State Federation of Labor will be represented at the state legislature, when the bills come up, by representatives, as will the Central Labor Union of Philadelphia and other labor bodies throughout Pennsylvania.

The coal operators, the Manufacturers' association and other employers' organizations will also be represented at Harrisburg, all fighting for the kind of compensation bill they want.

### BODY OF W. U. HENSEL HOME

Prominent Pennsylvanian Died in a Savannah Sanitarium.

Savannah, March 1.—The body of William U. Hensel, prominent Pennsylvanian, who, after being hurried to Savannah last Friday on Senator Don Cameron's yacht, died at a sanatorium here, was sent to Lancaster, Pa., over the Seaboard Air line.

The body of Mr. Hensel was accompanied by Dr. T. B. Appel, of Lancaster; Mrs. Hensel's daughter, Mrs. John Neuman, and his sister-in-law, Miss Dorothy Flynn.

Mr. Hensel came south in the hope that his health would be benefited. He had been suffering from dropsy.

### 95 MEN FACE INDICTMENT

West Virginia Grand Jury Ends Work on Mine Riot.

Fairmont, W. Va., March 1.—The special grand jury investigating the mine strike riot at Farmington heard the last witness.

Prosecutor Morris said that a report would be made containing the names of ninety-five defendants. Warrants, it was stated, charging riot and murder, will be served some time today.

The county authorities do not anticipate further trouble, reports from the mining districts indicating that the strikers are quiet.

### \$1,500,000 in Fire Ruins.

Peoria, March 1.—Fire in the business district destroyed several buildings, causing a loss estimated at \$200,000. Fear is felt for the safety of \$1,500,000 in securities locked in the vaults in one of the burned structures.

### Resigns Rather Than Be Vaccinated.

Washington, March 1.—Lieutenant Samuel Peacock, of the coast guard ship Miami, has sent in his resignation because he refuses to be vaccinated against smallpox.

### TO MOBILIZE U. S. RESERVES

Congressman Gardner Invites Army of Sixteen to Dinner and Reunion.

Washington, March 1.—Eight of the sixteen members of the reserve army of the United States having accepted his invitation to a dinner and reunion of the army, Representative Gardner, of Massachusetts, said that the affair will be held in Washington in the week of April 5.

"Fifty per cent of the reserve army have responded to the call to colors," said Mr. Gardner, "and now we shall endeavor to mobilize them."

Those who have accepted are: William J. Williams and Joseph Sturm, of San Francisco; A. L. Anderson, Philadelphia; Thomas Kelly, New York city; Isaac Sohn, Brooklyn; Antonio Schettino, Brooklyn; Leonard Neal, Indianapolis, and William Boriskin, New York.

Mr. Gardner still hopes to hear from the other eight members of the reserve army, as he would like to mobilize it at its full strength.

## U. S. CHEMIST TAPS SOURCE OF DYES

Another Discovery Will Increase Gasoline Output.

Washington, March 1.—Two discoveries, both of vast importance to American industries, and one regarded also as a priceless military asset, were announced by Secretary Lane, of the interior department.

They are chemical processes, developed after years of research by Dr. Walter F. Rittman, chemical engineer of the bureau of mines.

One is expected to enable oil refiners to increase their output of gasoline by 200 per cent; the other one makes possible to produce from the crude petroleum toluol and benzol, bases for dyes and high explosives, for which in the past the United States and the rest of the world has depended almost exclusively upon Germany.

Dr. Rittman has applied for patents upon his processes to prevent the possibility of any monopoly in their use and will dedicate them to the American people.

"These processes," said Secretary Lane, "are fraught with the utmost importance. The Standard Oil company has had a big advantage over the independents in production of gasoline, having a patented process obtaining three times the amount of gasoline from a given quantity of petroleum the independents now obtain. Independent producers, as a whole, have never been able even to approach these results. When it is realized that the gasoline industry each year yields \$100,000,000 to \$150,000,000, the importance of this discovery is seen.

"The second process discovered by Dr. Rittman may prove of much more value than the first, in that it suggests the establishment of an industry in which Germany heretofore has been pre-eminent—the dye industry—and also promises indirectly a measure of national safety of incalculable import."

### HEAD OF POWDER CO. QUILTS

General Dupont Sells His Holdings For \$200,000,000.

Wilmington, Del., March 1.—With the transaction involving \$200,000,000, it was learned that General T. Coleman Dupont, president of the Dupont Powder company, has sold his entire holdings in the company to a syndicate connected with the big concern.

General Dupont is retiring from the business because of ill health. Pierre S. Dupont and others active in the management of the company have purchased the stock, it is understood, so that no outside interests are included in the deal.

For the last seven years Pierre S. Dupont has been acting president of the company, and it is expected that he will be elected to the presidency. There will be no changes in the management.

General Dupont, who was operated upon at the Mayo hospital in Rochester, Minn., Dec. 24, left Chicago on Wednesday for San Francisco with his wife.

### Rheims Mayor Honored.

Paris, March 1.—The Francois Joseph Andiffred prize of 15,000 francs (\$3900) for "the finest and greatest devotion of whatever kind," has been awarded by the Academy of Moral and Political Sciences to Mayor Langlet, of Rheims.

# BELL RINGS WHEN STORM IS ON WAY

Approach of Atmospheric Disturbance Told by Electricity.

FORECASTS ARE ACCURATE.

Machine of Such Delicate Arrangement That It Is Affected From Two to Seven Hours Before Storm Arrives. Most Effective in Summer—Reliable as Government Bureau.

A remarkable machine has been installed upon the roof of the New York Edison company's Waterside station in New York city for the purpose of detecting the approach of storms. This ingenious instrument, which is said to surpass even the United States weather bureau in the general accuracy of its forecasts, is a brand new device, which has such delicate perceptions that it can feel the coming of a storm while the disturbance is still from two to seven hours off.

"The importance of such a precaution is appreciated when one senses the sudden and at times tremendous demand for light in both office and residence buildings on the descent of storms," says the Edison Monthly. "Occasional have arisen when this demand has 'boasted' the summer day normal of 60,000 kilowatts to 105,000 kilowatts in less than twenty-five minutes."

"The device in question is not complicated and will no doubt meet with ready acceptance by central stations generally. Its principle rests on the fact that summer storms are almost invariably associated with electrical disturbances. Detection therefore is brought about by what virtually amounts to a wireless telegraph receiving circuit. To a certain extent such apparatus is effective during winter weather, though storms at that time of year exhibit but comparatively weak electrical manifestations."

**The Detector Plan.**  
The plan provides for the following features: An aerial frame, a spark gap, a coherer and condenser, a ground connection, a combined bell and de-coherer, together with a relay, two batteries and a short circuiting switch.

"In receiving messages from storm headquarters due regard has to be given potential interference by wireless messages on their way between political and commercial headquarters. The spark gap provides security against any such unneighborly proceeding, as the spherical terminals are one-sixteenth of an inch apart."

"In common with earlier specimens in wireless telegraphy the coherer consists of a short small bore tube of glass containing nickel silver filings between German silver plugs. The bell, one of single stroke connection, is so mounted that its clapper will back strike the coherer tube. The high resistance of the coherer impulse is lost upon a storm passing, whereas steady current flows through from its battery, causing the tap. High resistance is then promptly restored by the return of the clapper jarring the filings, and everything is in readiness to announce another storm impulse."

**Short Circuit System.**  
"In the present case the inserting of a condenser was made to prevent the flowing of direct current, though in other instances it could be left out. The necessity of a short circuiting arrangement appears in the protection of the set when the storm is about to break."

"The action of the device is most interesting to watch. Experience shows that a storm a few hours distant causes the bell to tap every fifteen to five minutes. On coming nearer, say two hours before breaking, the storm records itself in minute or half minute taps. For a full hour before the climax the bell rings continually, then stops abruptly as the set on the breaking of the storm is short circuited."

"By this time not only the vast residential and theater section, but every office and loft building is a sparkle with lights through the rain. Long before, however, everything at the generating station was in readiness, boilers firing up and turbines throbbing, provisions making these little emergencies mere incidents in the round of central station routine."

## IS YOUR SUIT BUILT OF TIN?

May Be Wood, Glass, Sweepings or Cotton, Tailors Warn.

Your new, all wool suit it quite likely to be of pure vegetable origin or may even be constructed of tin or of almost any material but wool, according to a warning by the directors of the National Merchant Tailors' association in annual convention in Chicago. The association is getting ready a pure wool bill to be submitted to congress.

According to the tailors, the bargain suit may be of tin shavings, wood pulp and wood fiber twisted to resemble silk threads, spun glass, wool earlings, sweepings forced into an open cotton mesh by pneumatic pressure or of jute, cotton or hemp.

**Editor Gets a Warning.**  
Ernest J. Jeter, editor of the Paris Behar, criticized the censorship, and the censors have notified him they will refuse to read his proofs hereafter, and if he publishes a line contrary to law he will have to take the consequences.

**Daily Thought.**  
Politeness appears to have been invented to enable people who would naturally fall out, to live together in peace.

## SNAPSHOTS AT NOTABLE PERSONS

F. P. Walsh, Chairman Industrial Commission.

Photo by American Press Association.

It has been said of Frank P. Walsh, chairman of the federal commission on industrial relations, that he is one of the most remarkable men in public life. He is known as Kansas City, Mo., where he is known as the man who does things in an interesting way. He is a lawyer by profession and at one time was counsel for a powerful street railway corporation, but resigned the position in order that he might be unimpaired by monopolistic influences. Since then he has built up a big practice and has acquired a large income.

Mr. Walsh was one of the prime movers in the social center idea and would restore the old freedom of community debate by opening the schoolhouses as centers of meeting and debate of public questions. Several years ago he was chairman of a Missouri Democratic state convention that declared for state wide primaries and had the satisfaction of seeing that reform become a law.

Beginning his business career as a boy in a factory, he later became a clerk in a railroad office, learned stenography and became a court stenographer. While holding that place he studied law and was admitted to the bar at the age of twenty-five. He has made a special study of labor and labor unions. Always active in politics, Mr. Walsh never held an office except that of assistant city counselor by appointment; also he was chairman of the Kansas City civil service commission, which was an honorary position.

Since the commission began work a little over a year ago it has held sessions in nearly every large city in the country.

**A South Dakota Statesman.**  
When the new senators, elected last November, assembled at the capitol to take the oath of office that admonishes and binds them to perform faithfully their duties as members of the national government some changes will be noted.

Last November when the first election news was disseminated it appeared that C. L. Crawford, Republican, who for six years has represented the commonwealth of South Dakota, would succeed himself. The final tally of votes, however, showed that Ed S. Johnson, a Democrat, had won by a narrow margin. When Senator Crawford was elected six years ago he won by a big vote. Last election Ed Johnson beat him handily.

The new senator, by the way, is something of a character. He is a fundamental as well as a political Democrat. That is probably the reason he was chosen to represent South Dakota in the United States senate. He lives in Aberdeen and is universally and commonly known as Ed. No frills for Senator Ed S. Johnson. He desires to be known as just plain Ed, and so history in all probability will record him.

# ALLIESHOLDFORTS ON DARDANELLES

## British and French Flags Are Raised Over Defenses.

### MUST MEET TURKISH FLEET

Constantinople In Panic and Government Prepared to Flee as Allies Approach the Capital.

London, March 1. — British and French flags are now flying from six forts in the Dardanelles, according to an Exchange Telegraph company telegram from Athens.

The forts, reduced in the terrific bombardment of Thursday and Friday, have all been formally taken over by landing parties.

Although the return fire of the Turkish forts has so far proved ineffective, it is not understood that Vice Admiral Carden will have a clear way to Constantinople. The Turks have assembled a fleet of about twenty-five warships in the Nagara Roads, which must be accounted for.

Against these the British will send such fighting machines as the Queen Elizabeth, the battle cruiser Indefatigable and the battleships Cornwallis, Vanguard, Triumph and Agamemnon. Supporting these will be the French battleships Suffren, Gaulois and the Bouvet.

Altogether Vice Admiral Carden is prepared to throw into actual action twenty-eight ships on his fighting line.

Ships Fired 1000 Shells a Day. Paris, March 1.—The allied fleet on Friday fired a thousand shells at the Dardanelles forts, says a dispatch from the Athens correspondent of the Havas agency. The message continues:

"The British fleet discharged its guns at a distance of eighteen kilometers (about twelve miles). The battleship Gaulois distinguished herself, contributing largely to the destruction of Fort Seddul-Bair. During the bombardment of this fort munition depots blew up, killing many defenders, among whom were numerous Germans."

"Saturday forty ships advanced as far as Fort Orkhanieh and swept the Turkish encampments. They then bombarded Intep, which they destroyed. Submarines, protected by French vessels and aeroplanes, constantly moved about. Mine dragging was effected methodically."

"According to information from authoritative sources, the arrival of numerous injured soldiers caused a panic in Constantinople."

The success of the allied fleet has thrown Constantinople into a panic. Reports that the sultan is preparing to flee have been received from several points, while the inhabitants of the Princess Islands, in the Sea of Marmora, have been ordered to evacuate their homes.

## MAN SLAIN: BROTHER HELD

Prisoner Says He and Victim Had Trouble Over Money.

Cumberland, Md., March 1.—Robert T. Dean was shot down and killed on Maryland avenue, the slayer escaping in the darkness.

William Dean, his brother, was arrested as a suspect, and at the coroner's inquest he admitted that he and his brother had some trouble over money, claiming that the dead man owed him \$6.

The brothers and their families came to Cumberland several months ago from Harrisonburg, Va. The wife of the dead man said that William Dean had threatened her husband and herself.

## 66 STUDENTS DROPPED

Princeton Record Is 22 More Than 1914 Examinations.

Princeton, N. J., March 1.—As a result of the recent midyear examinations, Princeton dropped sixty-six undergraduates, twenty-two more than a year ago, and three more than the average of the last ten years.

The students who are studying for the degree of bachelor of letters lost 41, while the bachelor of arts lost 14 and the engineers 8, which is really the largest percentage.

The complete loss by classes is: Seniors, 5; juniors, 7; sophomores, 25; freshmen, 19; qualifying and partial, 10.

## 619,000 Attend Fair First Week.

San Francisco, March 1.—The attendance at the Panama-Pacific International Exposition for its first week was officially announced as 619,000, a daily average of 88,428. According to the official statement, attendance at the Chicago Exposition for the corresponding period was 257,036 and at St. Louis 325,144.

## Boys Eat Poison Root; One Dead.

Harrisburg, Pa., March 1.—Harold Beckey, aged five years, is dead at his home in Royaltown of eating a poisonous root in mistake for horseradish, and Russell Beckey, his twin brother, is seriously ill and may die. Two others were made sick by eating the root, but will recover.

## FRENCH SEIZE DACIA IN THE CHANNEL

## Prize Court to Rule on American Steamship.

Washington, March 1.—The steamship Dacia, which was transferred from German to American registry, has been seized in the English channel by a French cruiser, and is under arrest in the harbor at Brest.

The details of the seizure of the Dacia are not known as yet. The announcement that she had been taken to Brest was made by the French department of marine and confined itself to that one statement, not even the name of the cruiser which took her being made public.

That the Dacia would be seized by the allies was known and the seizure caused no surprise when it was learned. The warning that the Dacia would not be permitted to steam to Rotterdam with her cargo of 11,000 bales of cotton, to be transhipped to Bremen, came from Great Britain, but it was generally understood that the Dacia would be stopped by a French war vessel and taken before a French prize court.

In the past Great Britain has recognized the right of neutrals in certain circumstances to buy ships from belligerents during a war, but France has clung to the position that all such sales during war are invalid and that the registry of a vessel of a belligerent cannot be changed to that of a neutral country.

Had Great Britain seized the vessel she would have been under the difficulty of having her own prize court decisions quoted against her. France is therefore in a better position to push the attack on the validity of the transfer of the Dacia from the German to the American flag after the war began.

Salem Glass Works Burned. Salem, N. J., March 1.—Fire, believed to be of incendiary origin, destroyed the lower plant of the Salem Glass Works. The loss is about \$80,000. A gale drove the fire through the plant despite the efforts of the firemen.

The brothers and their families came to Cumberland several months ago from Harrisonburg, Va. The wife of the dead man said that William Dean had threatened her husband and herself.

## John Blunt's Infatuation

By ESTHER VANDEVEER

John Blunt, gentleman's valet by profession, just now out of a position, was going up to his room on the fourth floor of a tenement house when he noticed a dainty glove on the stair before him. Seeing a figure in skirts ahead of him, he picked up the glove and, hastening on, asked the comely young woman he overtook if the glove belonged to her. She smilingly acknowledged that it did and thanked Mr. Blunt accordingly. Moreover, he noticed or fancied he noticed a look of admiration in the young woman's eyes, which was not surprising, for he was a good looking man.

"I haven't seen you in the building before," said John. "Are you been here long?"

"Only a few days. Me and my mother 'ave a couple o' rooms on the next floor above, but I'll not be 'ere very long. I'm looking for a place."

"What kind of a place?"

"A lady's maid."

"Mebbe I can 'elp you to that. I'm a 'valley' myself when I'm at work and know a lot o' swell folks."

"If you do, please let me know. I'm in No. 9 on the next floor above."

The very next day Mr. Blunt rapped at No. 9 and was admitted by an elderly woman, who called out "Susan!" and in came the young woman he had met the day before. He said he had called to get some information as to what wages she would expect and other items of like nature, but in reality he was desirous of forming Susan's acquaintance.

There are triflers among the lowly as well as among the swells, and Mr. Blunt was bent on an affair with the pretty lady's maid. He called often, and his attentions appeared to be highly appreciated. Susan seemed a bit fond of finery and jewelry, and Mr. Blunt considered himself fortunate in being able to gratify her, especially in the matter of jewelry. He made her presents of a few inexpensive ornaments, but they did not seem to satisfy her. John found her very fascinating and in order to gain her
